PART 22 - DESIGN SERVICES

CHAPTER 22-1 ARCHITECT/ENGINEER SELECTION

A. INTRODUCTION

This chapter establishes the Architect/Engineer Selection as the Indian Health Service (IHS) standard to provide guidance for the Engineering Services, and the operating components of IHS, including tribal entities who utilize services of architect/engineer firms.

B. REFERENCE STANDARDS

The Indian Health Service Architect-Engineer Contractor Selection dated June 1993 is included in the Technical Handbook by reference only. Copies can be obtained from the Environmental Health and Engineering by calling extension (301)443-1852.
